TASKFORCE® EXTERNAL VACS

There is about 3 times the filtration area to capture dust, soot, dirt and liquids at the same time with these versatile Tornado External Vacuums. Heavy material falls to the tank bottom while light particles are captured in the external poly filter bag. The Tornado Taskforce Vacs are designed to handle dust, metal filings, sludge, liquid and semi-liquid materials. Vacuums wet and dry simultaneously.

No. 98990
