

## VAC-A-SAMPLE® PNEUMATIC SAMPLERS FOR COTTONSEED

**Faster, more accurate samples with reduced costs!!!**

Seedburo provides two Vac-A-Sample units specifically designed for the cottonseed industry. These samplers provide a fast and efficient method of sampling cottonseed in bins, trucks, railcars and other storage vessels.

Where the "grain" Vac-a-Sample utilizes a double-tube probe section, the cottonseed units have single-tube construction to lift the lightweight cottonseed more efficiently. The Vac-A-Sample lifts a continuous sample as vacuum action assists the operator to probe deeper into the vessel. This allows for easier penetration into lint pockets and hard packed areas. The continuous sample is fed into the uniquely designed cyclone collector through a flexible pneumatic hose attached to the probe. The Deep Bin unit will sample to 60 feet deep and more.

**Equipment Requirements:**

**Deep Bin Sampler**

Cottonseed Deep Bin Cyclone with 7/8 HP, Class II, Group G, 110V, 50/60Hz, 1PH Motor and Stand .....	<b>No. Q71P4000</b>
Cottonseed Deep Bin Cyclone with 7/8 HP, Class II, Group G, 220V, 50/60Hz, 1PH Motor and Stand .....	<b>No. Q71P4001</b>
Threaded Gooseneck Connector .....	<b>No. Q71P4200</b>
Threaded 4' Probe Sections .....	<b>No. Q71P4100</b>
4' Cottonseed Tip Section .....	<b>No. Q71P4420</b>
T-Handle Lever Yoke .....	<b>No. 90</b>
10' x 1½" Flexible Vinyl Hose .....	<b>No. Q71P1300</b>
20' x 1½" Flexible Vinyl Hose .....	<b>No. Q71P1310</b>
30' x 1½" Flexible Vinyl Hose .....	<b>No. Q71P1320</b>

**Truck Sampler**

Cottonseed Truck Sampler Complete with Cyclone, 7/8HP, Class II, Group G, 110V, 50/60Hz, 1PH Motor and Stand .....	<b>No. Q71P5000</b>
Cottonseed Truck Sampler Complete with Cyclone, 7/8HP, Class II, Group G, 220V, 50/60Hz, 1PH Motor and Stand .....	<b>No. Q71P5001</b>
9' Probe Section Complete with Cottonseed Tip and Swivel Gooseneck Connector .....	<b>No. Q71P5100</b>
25' x 2 ½" Hose Section for Cottonseed Truck Sampler (only) .....	<b>No. Q71P5200</b>
