

SEEDBURO BAG SEALERS

Seedburo offers two styles of Bag Sealers. Our Hand-Operated Impulse Bag Sealer S210 series and our Bench-Top S250 series. Ideal for use with polyethylene sample bags (see below). Units feature a teflon jaw for a clean, watertight seal. The hand-operated unit is available with an 8" or 12" teflon jaw and is thermostatically controlled.

The bench-top S250 series features an accurate thermostat to control the sealing temperature on the upper and lower jaws. All jaw surfaces are heated evenly by a durable heating cartridge. No hot or cold spots. All of the S250 series electrical components are easily replaced. Each provides a strong ¼" seal. A foot pedal kit is supplied with each S250 series sealer.

We also offer an adjustable stand for use with the bench-top units that features a tilt-top for right angle sealing, adjustable legs (20" to 39" high) and assembly for foot pedal use. Dims. 24" W x 14½" H. Net wt. 35 lbs.

Hand-Operated Impulse Bag Sealer with 8" Teflon Jaw, 110V, 50/60Hz, Ship wt 7 lbs, Dims 13½" L x 4" W x 7¼" H	No. S210-8
Hand-Operated Impulse Bag Sealer with 12" Teflon Jaw, 110V, 50/60Hz, Ship wt 10 lbs, Dims 19½" L x 4½" W x 7¾" H	No. S210-12
Hand-Operated Impulse Bag Sealer with 12" Teflon Jaw & Cutter Blade, 110V, 50/60Hz, Ship wt 12 lbs, Dims 19¾" L x 4½" W x 9" H	No. S210-12C
Bench-Top Heat Sealer with 8¼" Teflon Jaw, 110V, 50/60Hz, Ship wt 10 lbs, Dims 17½" L x 6½" W x 9¾" H	No. S250
Bench-Top Heat Sealer with 12" Teflon Jaw, 110V, 50/60Hz, Ship wt 10 lbs, Dims 17½" L x 6½" W x 9½" H	No. S252
Bench-Top Heat Sealer with 24" Teflon Jaw, 110V, 50/60Hz, Ship wt 13 lbs, Dims 25¼" L x 6¾" W x 9½" H	No. S254
Adjustable Stand, Ship wt 29 lbs	No. 825
Transformer for 220V	No. K20

POLYETHYLENE GRAIN SAMPLE BAGS

Seedburo's "poly" bags are ideal for retaining samples or for sending samples for inspection or evaluation purposes. Can be used separately or as a liner for our canvas grain sample bags (see below). Made of tough, transparent polyethylene, these bags will not become brittle. Bags are odorless, non-toxic and sealable. Available in sizes specified or in rolls (specify width and thickness).

Poly Bag with Pockets, 8"W x 26"H x .003 ml thickness (sold in lots of 100's or 1000's)	No. 620
Poly Bag, 6"W x 13"H x .006 ml thickness (sold in lots of 100's or 1000's)	No. 621
Poly Bag, 8½"W x 18"H x .003 ml thickness (sold in lots of 100's or 1000's)	No. 622
Roll of Polyethylene Tubing (Specify Width and Thickness)	No. 623
Plastic "Twistie" Ties (pkg/1000)	No. 624
Panduit Cable Ties (pkg/1000)	No. 626
Panduit Hand Tool	No. 627

SEEDBURO CANVAS GRAIN SAMPLE BAGS

These government standard sample bags are made to comply with USDA specifications. The heavy canvas material has a mildew proofing agent to retard deterioration and is treated with a water resistant agent. All bags have double stitched drawstring. Private labeling is available - Call for quotation.

Canvas Drawstring Bag, 8" W x 16" H	No. 155
Canvas Drawstring Bag, 8½" W x 19" H	No. 156
Canvas Drawstring Bag, 10½" W x 16½" H	No. 157

Non-Government approved canvas bag with single stitched drawstring. Does not have mildew or water resistant agents (not shown).

Canvas Drawstring Bag, 8½" W x 18¼" H	No. 152
