

SEEDBURO DIGITAL CHECKWEIGH SCALE

The Seedburo Series 4300 Checkweigher is an easy to use, rugged, washdown safe scale and features 304 stainless steel NEMA 4X rated construction. The control panel is hardened to resist scratching and puncturing and the bright LED displays weights in lb, oz, Kg, g, or lb and oz. Three bright color programmable checkweigh indicators make checking tolerance levels quick and accurate. The new shockproof, low profile (as low as 2" high) base features a "quad spring" break-away design to protect against shock and overload. The 4300 series is NTEP certified and meets USDA and Canadian Weights & Measures approval.

The Seedburo Digital Checkweigh Scale features RS232 data interfacing, sealed IP66 load cell (protects against moisture and dust), "Intelli-Cal" calibration (using as little as 10% of scale capacity) and exclusive "Stabil-izer" filter (eliminates "bouncy display" caused by vibration and air movement). 4300 series features tower display. A4300 series features a 20" fixed height column with indicator head. 115/230V - 50/60 Hz.

4300 Series Shown. A4300 Series has 20" fixed height APS column with indicator.

Precision resolution shown. Also available in Super Precision resolution. Other capacities & platform sizes avail. *This Model does not have lbs. & oz. weight display capability. ** This unit ships in two (2) cartons. Each platform carton is 28" W x 28" L x 9" H, each tower carton is 12" W x 12" L x 30" H.

SEEDBURO PORTABLE PLATFORM SCALE

The Seedburo Model RL1100 is a heavy-duty platform scale featuring rugged cast iron platform, base and levers for stability and durability. Hardened steel precision pivots and self-aligning bearings ensure accurate and consistent weighing measurements. Total capacity is 1000 lbs. (500 Kgs No. RL1100M). Equipped with fully-enclosed wheels, the RL1100 is ideal for applications requiring portability. A large weigh beam features dual-sided graduations with a high contrast black background for easy weight readings. Counterpoise weights (provided) are cast iron, slotted and marked to scale capacity. The RL1100A Avoirdupois Single Beam Scale is NTEP certified legal-for-trade for Class III, 2000 divisions. Platform dims 18" L X 27" W X 8½" H. Overall dims 36"L X 25¼"W X 43"H Ship wt 200 lbs. Ship dims 39" L X 25" W X 9" H.

SEEDBURO PORTABLE BULK SCALE

Use the Seedburo Portable Bulk Scale to improve mixing accuracy and to save time and labor. This unit features a 17 cubic foot capacity hopper set on a double beam scale that registers to 1000 pounds. The weigh buggy is made of 12 and 14 gauge steel and rides on large, rubber 10" wheels and 6" casters. The hopper has a quick gravity bottom discharge which is 10" X 14" and is controlled at the operator's end. The unit is 30½" wide and 42" high. The front height of the hopper is 32¾" and has a length of 41". The Bulk Scale features a firm pushing handle and positive foot brake. The upper beam on the scale reads 100 lbs X 1 lb (metric reads 50 Kg x 200g). No part of the beam protrudes above the top of the hopper. A counterweight is included and installed. Bulk scales are NTEP certified. Ship wt 457 lbs. Ship dims (uncrated) 60" L x 36" W x 42" H.
