

MAGLINER TRUCK-LOADING PLATES

These dependable Magliner Truck-Loading Plates offered by Seedburo are made of lightweight, high-strength, aluminum magnesium alloy. Ideal for docks and warehouses, these loading plates can handle rolling loads up to 13,000 pounds safely and easily. Crowned for smooth, bump-free crossover, the loading plates are provided with beveled edges to prevent load jar and brilliant yellow Safe-T-Lanes mark off safe crossover area. Adjustable, positive action automatic Drop-Lock prevents dangerous slippage (in accordance with OSHA requirements). Plates also feature diamond tread surface and two handles for easy moving and placement.

SEEDBURO WASTE TRUCKS

The Seedburo Waste Trucks combine versatile design with heavy-duty construction. Rugged 14-gauge steel with leak proof solid welds on all seams provides years of durable, dependable service. All trucks have molded solid tires on two fixed casters with (single or twin) rear swivel steering casters. Models are available with optional replaceable solid tires and dual-purpose hand brake to help operate control heavy loads on inclines. This allows front wheels to lock for easy dumping. **Call for Quote.**
