The Model 919<sup>®</sup>ES was designed to perform quick and accurate moisture measurements. For this reason, the operation of the Motomco Model 919<sup>®</sup>ES Automatic Flowthrough Moisture Meter is straightforward, with operation procedures automatically performed without any interaction from the operator.

**Features:**

- Equipped with a built-in fast and accurate temperature probe.
- No external scale or thermometer is required.
- Fully automatic. Determines the correct sample size and sample temperature prior to displaying the measured moisture content.
- Automatic operation for multiple measurements of the same grain type.
- Connects to a printer or personal computer to obtain a permanent record of measurements performed.
- Power supply available in 110 or 220 Volts.
- Internal Calibration available for up to 250 different types of grains.
- Meets NIST Handbook 44 Specifications.
- NTEP CERT. #96-081A3
